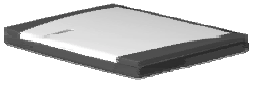
PRODUCT BRIEF

COMPAQ *EVO* NOTEBOOK N150

The Aggressively Priced Thin And Light Modular Notebook.

AT A GLANCE

Compaq N150



INTRODUCTION

The Compaq *Evo* ™ Notebook N150 Series combines powerful features and a compact form factor in a price-performance combination that is ideal for business customers seeking an economical yet highly mobile unit. The notebook packs all the technology and features integral to everyday use in a compact size weighing less than 6 pounds, making it an ideal solution for field and sales representatives on the go and personnel regularly taking work to and from the office.

This document provides all the information needed to evaluate a Compaq Evo Notebook N150 purchase, including key benefits and performance features.

What's Special About This Product?

The Compaq Evo Notebook N150 offers everything the commercial business user needs in an affordable, lightweight, and compact design. Special features include:

Optimum price and performance combination.

A true value proposition, the Evo Notebook N150 Series makes mobility more affordable than ever with performance and features that will meet the needs of most business users.

Lightweight and durable form factor. The notebook is highly portable, weighing in at 5.9 pounds (2.7 kg), and durably built for the daily demands of a commercial user.

Microsoft certified. The unit is Microsoft certified for the ultimate in compatibility with Microsoft's Windows 98SE, Windows ME, and Windows 2000 operating systems.

Full-sized keyboard with easy-access Internet buttons. The full-sized keyboard is easy to use, and the easy-access Internet buttons allow one-touch access to the Internet, intranet, and commonly used applications

USB Ports

Taking advantage of the latest Plug and Play technology, the Compaq Evo Notebook N150 Series features two integrated USB ports built into the motherboard for instant, no-hassle connections to USB devices. "Hot-swapping" capability means you don't have to shut down and restart the unit to attach or remove a USB device. The Compaq Evo Notebook N150 Series automatically detects the connected device and configures the necessary software, making it easier for multiple notebook users to share common devices.

FastIrDA. The Evo Notebook N150 supports transmission of data between two devices over short-range point-to-point infrared at speeds between 9.6Kbps and 4Mbps

Environmentally friendly. The Evo Notebook N150 Series is a shining example of Compaq's "Design for Environment," policy that integrates sound environmental practices into every aspect of product design.

Worldwide availability and serviceability. The unit is available and supported by Compaq's award-winning one-year warranty and service staff around the world
